DETAILED ACTION

Allowable Subject Matter

1. On August 4, 2006 meeting the applicant agreed to incorporate the selected limitation of independent claim 17 into all the other independent claims to make them allowable. Claims submitted by the applicant on August 21, 2006 reflect the agreed upon changes.

2. The following is an examiner's statement of reasons for allowance: The prior art of record solely or in combination failed to teach the invention as claimed. For instance regarding the independent claims 1, 7, 15, 17, 23, 24, 25 & 26 in light of specification (see pages 11-13 figure 3), and in combination with establishing a link layer connection with the point-to-point HTTP server using physical addressing; interacting with the point-to-point HTTP server over the accessed line and over the established link layer connection using non-packetized HTTP protocol requests and responses without the necessity of an intervening packet-routing network; wherein interacting with the point to point HTTP server does not require connecting to an Internet Service Provider (ISP).

3. Claims 2-6, 8-14, 16 & 18-22 are allowed by virtue of their dependency on independent claims 1, 7, 15 & 17 respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statements of Reasons for Allowance."
